

Acknowledgments

This program was sponsored by the Federal Aviation Administration. Technical program management was provided by Dr. William T. Shepherd, Program Manager, Office of Aviation Medicine. This program was conducted under contract DTFA01-94-C01013, work order #3.

The authors of this report (Michael Merriken, Peter Chyan, Richard McIntosh and Daniel Or) would like to thank the AFS personnel at the San Diego FSDO, specifically Steve Drew and Ray Billings, for their assistance during the wireless data transfer testing. The authors would also like to thank Jean Watson, Office of Aviation Medicine, for her assistance and support during the program.
